

Frictionless sliding steel cable — rest-length sweep ($s_f=1.0$, $\theta=0^\circ$, $p=1000$ Pa)
Colour = cable tension (orange=no cable; green→blue = increasing tension)

Motif 1 — crown height & cable tension

Motif 2 — crown height & cable tension

Motif 1 — shape profiles (solid= $x=0$, dashed= $y=0$)

Motif 2 — shape profiles (solid= $x=0$, dashed= $y=0$)

Motif 1 — section curvature (solid= $x=0$, dashed= $y=0$)

Motif 2 — section curvature (solid= $x=0$, dashed= $y=0$)

Motif 1 — section stress ($y=0$ plane)

Motif 2 — section stress ($y=0$ plane)
